SECRET

UNITED STATES GOVERNMENT

Memorandum

TO   : [ ] 25X1A   DATE: 29 June 1965

FROM   : DAD/S&D

SUBJECT: 25X1A

25X1D On the [ ] I was of the impression that the
[ ] format was required in order to get adequate bandwidth so that the
coding spacing could be measured to something in the order of 1/10
microsecond. It now appears as though we are going to use a standard
format. Does this mean that the accuracy to which data can be retrieved
is degraded?
